

FACULTY DEVELOPMENT IMMERSION COURSES

Model itineraries designed for faculty, international education staff and administrators

Home to over 200 million, Brazil is the fifth largest country on the planet with one of the fastest growing higher education sectors. From free federal universities, which are at the top of the country's higher-education hierarchy, to for-profit universities, which now enroll three-quarters of all Brazilian college students (nearly 5.3 million people—more than twice as many students as in U.S. for-profit schools). The Brazilian education system is expansive, and we are here to help connect you to its many facets and leaders—so you can focus on creating strong, collaborative international relationships.

CAMPUS BRASIL COORDINATORS

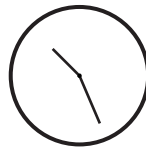

24/7 Coordination

our workday doesn't stop at 5:00, we support learners and faculty around the clock

Informative Resource

we are local educators, entrepreneurs and professionals handpicked to complement your program's learning objectives

Logistics Resource

we keep the program on the right track: from schedule updates to transportation coordination and bilingual support

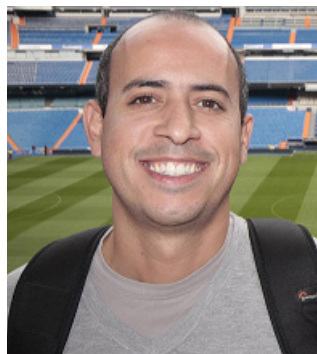

****2 coordinators accompany each program
one logistics coordinator + one academic coordinator***

****example coordinators:***

Daniel Amgarten: I am acting Director and Co-Founder of Campus Brasil. I have a passion for showing off my country -- its peoples, places and culture. I am a graduate from USP and today a lecturer on campus helping learners understand the impacts of effective tourism. I have been working with travel programs for 10 years, and am passionate about international education. While I have been a student in 5 different countries my love of Brazil has always brought me back home!

Renato Goés: I am a Journalist with an emphasis on Culture & Education. In 2013, I founded the Urban Bike SP - a project focused on giving the city visitors a different view on São Paulo by providing bike tours around its most unusual and interesting spots. Ever since the beginning of this project, working as guide has struck me as a passion. As a Campus Brasil Coordinator I've been all over in Brazilian territory and worked in several Faculty-Led Programs.

SAFETY FIRST

Safety & Crisis Management Planning

Crisis & Safety Management Plan: mediating risks, promoting safety and detailing the necessary planning for precautions and preventive measures to ensure that risks are controlled and safety is never compromised

Be aware of pickpockets: Do not store your wallet/smartphone in back pockets or easy-to-access pockets on your clothes/bags. Also, do not leave your belongings unattended in public spaces.

Alcoholic beverages: Drinking should always be done in moderation!

Keep the bling at home: Avoid going out with expensive jewelry, laptops or other expensive electronics, it is best to leave expensive jewelry/ electronic gadgets at home!

Drugs: Do not be tempted to buy, sell, carry or use any illegal drug while abroad. Whether you are alone or in group, the use of even a small amount of an illegal drug can jeopardize your welfare. Remember that while in Brazil you are expected to obey Brazilian law.
